

The Rental Exchange

**Using your rent payments....
....to improve your credit
score!**

Renters sometimes struggle to get affordable loans, a mortgage and credit cards or to open bank accounts; often this is because they do not have a credit history. If you want to buy something on credit, then it helps considerably if you have a good credit history (a track record of paying off credit agreements). Companies use credit history to assess your creditworthiness before making a lending decision.

Having a good credit history also helps to provide proof of your identity, and where you live and have lived before. This can help you access a range of goods and services online, including getting the best deals on mobile phones, TV and broadband packages and car insurance.

Homeowners with a mortgage have an advantage as their mortgage payment history can count towards their credit history and we strongly believe that your rent payment history should be used in the same way to help you access more affordable credit. There is a legitimate interest in the sharing of data into Rental Exchange for these purposes, which forms our legal ground for the sharing of this data into the Rental Exchange. Landlords who share data into Rental Exchange will have a legitimate interest in being able to make use of this data to support better informed tenancy decisions.

We have teamed up with Experian to take part in The Rental Exchange. The Rental Exchange is a way to strengthen your credit report without you needing to take on new credit. The scheme enables us to share details about the rent you pay with Experian on a monthly basis. This is then included in your credit report, meaning you will then be recognised for paying your rent on time.

Not only will we be able to work with you more closely to manage your existing tenancy agreement, your track record as a tenant will enable Experian to use the information supplied to them to assist other landlords and organisations to:

- assess and manage any new tenancy agreements you may enter into;
- assess your financial standing to provide you with suitable products and services;
- manage any accounts that you may already hold, for example reviewing suitable products or adjusting your product in light of your current circumstances;
- contact you in relation to any accounts you may have and recovering debts that you may owe;
- verifying your identity, age and address, to help other organisations make decisions about the services they offer;
- help to prevent crime, fraud and money laundering;

Experian will hold your rental data for the time limits explained in CRAIN (section 7).
