

Replacement of Light Bulbs and Fluorescent Tubes

In accordance with your tenant handbook (*available to view online at www.redkitehousing.org.uk*), you are responsible for replacing any defective light bulbs or fluorescent light tubes and starters in your home.

The type of light fitting in your home will vary according to the age of your property and when it was last rewired or subject to an electrical upgrade.

A number of our properties have a fluorescent tube or 'D' lamp installed in the kitchens and bathrooms. They are called 'D' lamps because the fluorescent tube is in the shape of a 'D'.

The 'D' lamps are available at all major DIY outlets.

If your bathroom or kitchen lights have closed covers then we are responsible for this.

**Please contact the repairs team on 01494 463690
to report this.**
